

This report is submitted in response to Request for Additional Information dated March 13, 2008 referencing Amended Year End Report (10/1/07 - 12/31/07). The Request indicated that the Amended Report contains incorrect Column B figures. The Committee believes that the Column B figures for this particular report are, in fact, correct and that this report may have revealed that the Column B figures for the three preceding reports are incorrect, possibly due to a change in the software the committee is using to record receipts and disbursements or possibly because the election cycle dates were not properly entered in the software. The Committee is filing amended reports in order to correct the error in the prior reports' Column B figures. However, the website, www.fec.gov is not available at this time (two different computers attempted to access the web site) in order to download copies of the filed reports or obtain the FEC filing receipt numbers for the reports which due require amendments.
